EVALUATION CRITERIA

Criteria with a weight of zero are not applicable and should be disregarded. If a weight is not indicated for any criterion, telephone the Agency Contact person identified at the top of page 1 of Part A - RFP.

SECTION I - TECHNICAL PROPOSAL

1. Objectives and Services

Response must demonstrate your comprehension of the objectives and services for the proposed contract. Do not merely duplicate the Statement of Services provided with this RFP. Also, consider if Statement of Services is sufficiently explicit; are expressed or implied schedules attainable/economically feasible; etcetera? Explain. Define any assumptions made in formulating Criteria Response. If design services for a construction project are included, express any opinions regarding alternative design considerations that could impact construction costs.

2. Methods

Response must outline the methods for accomplishing the proposed contract or, if methodology is contained in the proposed Statement of Services, address its adequacy. Describe what, when, where, how, and in what sequence the work will be done. Address how proximity to the Project site, particular geographic familiarity, experience, and capabilities of your firms (Offeror and Proposed Subcontractors) and Project Staff might specifically contribute to the proposed methods. Identify the amount and type of work to be performed by any Subcontractors. Consider how each task may be carried out; what services or interaction required from/with the Contracting Agency; etcetera. Suggest alternatives, if appropriate. Identify any distinct and substantive qualifications for undertaking the proposed contract such as the availability of specialized equipment or unique approaches or concepts relevant to the required services which the firms may use.

3. Management

Response must describe the administrative and operational structures that will be used for performing the proposed contract. For example consider: who will have overall responsibility for the contract? Who will have direct responsibility for specific disciplines? What will the lines of authority be? For any individual who would be in "responsible-charge" (reference AS 08.48) as an Architect or Chemical, Civil (including Structural), Electrical, Mechanical, Mining or Petroleum Engineer, or Land Surveyor, so state and list his/her Alaska professional registration number. A graphic depiction is preferred in your response to this criterion. Additionally, the Contracting Agency may want to inspect work products in progress and have a close ongoing working relationship with your Project Staff. Accordingly, your response should also identify where the various contract services will be performed, in proximity to the Contracting Agency’s office and how communications will be maintained between your Project Staff, the Contracting Agency, and (as applicable) any other government agencies or the public.

4. Proposed Project Staff

Response must name the individuals to perform the following FUNCTIONS plus any other professional/technical functions you deem essential to perform the services:

1. Contract Management (contract compliance)
2. Project Management (single point-of-contact directly engaged in contract performance)
3. Civil Engineering*
4. Mechanical Engineering*
5. Structural Engineering*
6. Electrical Engineering*
7. Project Architect*
8. Cost Estimating

*All personnel acting in responsible charge for all Architectural, Engineering and Land Surveying functions require an Alaska Registration and must be identified in your proposal.

Continued Next Page
Describe the work to be performed by the individuals you name to perform essential functions and detail their specific qualifications and substantive experience directly related to the proposed contract. A response prepared specifically for this proposal is required. Marketing resumes often include non-relevant information which may detract from the evaluation of proposal. Lists of projects are not useful. Focus on individual's specific duties and responsibilities and how project experience is relevant to the proposed contract.

For each person named, identify their: employer, professional discipline or job classification and state of residency. List at least 3 professional references (contact persons and telephone numbers) for each person.

5. Workload and Resources

Response must: (1) discuss both current and potential time commitments of your proposed Project Staff to all clients; (2) discuss the projected workload of each firm (Offeror and Proposed Subcontractors) for all clients; and (3) demonstrate adequate support personnel, facilities and other resources to provide the services required. Provide a list of current contracts with the Contracting Agency in which your proposed Project Staff are participating. Include all contracts statewide with regions, divisions, etc., of the Contracting Agency.

Briefly address capabilities for providing additional services and/or services under an accelerated schedule. Address capacity to reassign personnel, equipment and facilities whenever the proposed contract would not require such capabilities or was delayed.

6. Past Performance

Response must describe previous projects the project team has worked on that are related in size and scope to this project. Describe the dollar amount of the projects and a brief narrative of the successes of the projects. Address how the experience will help your team to perform under this contract. Provide references (contact name and phone number) for each project. Indicate which of the proposed firms and project staff was involved in each project. The Authority reserves the right to investigate referenced projects, contact references and research other projects that the respondent has worked on.

Specifically, address team’s architectural and mechanical/electrical experience in the following areas:

- Phased remodeling (occupied building)
- Projects demonstrating energy efficiency, sustainability
- CM/GC Experience

7. Quality of Proposal

Offerors do not respond to this criterion. Committee members will rate this criterion based on their perception of the clarity, completeness and presentation of submittal. Note: This criterion is NOT used to evaluate color, graphics or other visual techniques except as they may detract from legibility.

8. Weight: 0

9. Weight: 0
SECTION II - PRICE

10. Total Price Proposal (Required Format)  

Provide proposed costs for all labor, subcontracts, equipment, expenses, etc., and a proposed amount for Fee. Submit a separate price proposal in the following format for the Offeror and for each Subcontract (first, second, third tier, etc.) that may exceed $25,000. Each price proposal must be signed and dated by the person who prepares it. Note that the PRICES of the next lower tier subcontracts must be listed as COSTS in Item #4 (Other Direct Costs) of the price proposal for the next higher tier contractor so that the price of all subcontracts “roll-up” into the Offeror's total price proposal.

1. Show project title, project number, and Offeror or Subcontractor Name.

2. **Direct Costs of Direct Labor (DCDL)**
   Show the estimated costs for each job classification of employees proposed for the contract. List under the following headings. Names required only for key staff and/or persons in “responsible-charge” (ref.: AS 08.48). **Hourly Rates must not include Indirect Costs or Fee.**

<th>Rate($/hr)</th>
<th>Proposed Costs ($)</th>
</tr>
</thead>
<tbody>
<tr>

<td>Total DCDL: $</td>
</tr>
</tbody>
</table>

3. **Indirect Costs (IDC)**
   These costs include what are generally referred to as 1) Fringe Benefits and 2) Overhead (including direct and indirect costs of Indirect Labor). Show the Proposed IDC Rate as a percentage of Direct Costs of Direct Labor and the product (IDC Amount) of that Rate multiplied by the total DCDL.

   IDC Rate: _______ %  IDC Amount: $ ______

4. **Other Direct Costs (ODC)**
   These costs include: subcontracts, equipment (company owned or rented), and reimbursable expenses (e.g.: transportation, food and lodging, reproduction, etc.) - if not included in Indirect Costs. List proposed costs under the following headings. If multiples of an item required, list the proposed quantity, unit rate, and total cost for each. **Costs must be based on actual costs to the offeror or the subcontractor, without any profit or other markup.**

</tbody>
</table>

5. **Total Proposed Cost**
   Sum of DCDL + IDC + ODC  Total Cost: $ ______

6. **Proposed Fee**
   List a **proposed amount** (Contract Fee is generally negotiated using a structured Fee analysis of proposed costs).

   Proposed Fee: $ ______

7. **Total Proposed Price**
   Sum of Total Proposed Cost plus Proposed FEE.  Total Price: $ ______

8. **In accordance with the Submittal Checklist (rfp-b), item 10.3, Price Proposals must be signed and dated by the person who prepares it (may be a different signature for each subcontractor).**

   *Response will be scored as follows: (Lowest Total Proposed Price) x (MPP*) = Criterion Score  
   (Offeror’s Total Proposed Price)  

   \*MPP = Maximum Possible Points = (5) x (Number of Evaluators) x (Weight)  

   If no federal funding, total price shall be reduced for the above calculation by the following applicable percentages when the prices are from Offerors designate preferences on page one of Part D.
