

NOTICE OF CANCELLATION

THIS IS NOT AN ORDER

DATE: January 08, 2026
SUBJECT: Cancellation of a Solicitation in Whole or in Part
Project: RFP AIDEA26-035 – Ambler Access Project (AAP) Winter Field Work

CHIEF PROCUREMENT OFFICER:

SIGNATURE:

This is notice of the Authority's cancellation of the solicitation identified above. Pursuant to 3 AAC 100.200, a bidder or offeror who wishes to protest this cancellation must file the protest within ten calendar days following the date this notice is issued. If the tenth day falls on a weekend or holiday, the last day of the protest period is the first working day following the tenth day.

EXPLANATION

Reasons for cancellation include the following:

- Based on recent developments, the solicitation did not provide for consideration of all factors of significance to the authority;
- Proceeding with the solicitation or award is not presently in the best interests of the authority
- The ability to perform a significant part of the work is partially contingent on securing access rights from third parties. At this time, all necessary access rights have not been obtained. The inability to obtain access rights has an impact on timing and type of work that can be performed and accordingly, results in a need to rescope the work plan's means and methods for performing the work. The Authority is diligently working towards authorization for all work areas.

Technical and land access requirements have materially changed since this solicitation was issued, including means, methods, permitting and routes. Addressing the changes requires substantive revisions to the scope of services, evaluation criteria and performance requirements and exceed the basis upon which proposals were prepared and submitted. This cancellation is based solely on project-related considerations and does not constitute a determination of the responsibility, responsiveness, qualifications or performance capability of any offeror. The present solicitation is **cancelled**, and the Authority may prepare a new solicitation for this project. All proposals submitted in response to this solicitation are rejected pursuant to 3 AAC 100.180, without liability to the Authority.
