SECTION 1. INTRODUCTION AND INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE RFP

The Alaska Energy Authority (AEA) is soliciting proposals from a qualified firm (“Firm”) to collect data and perform an impact evaluation of those grants awarded through the Alaska Renewable Energy Fund (REF) from its inception through December 31, 2022 and provide recommendations to the Authority and the State to consider regarding the impact and efficacy of the program. A draft report is expected to be delivered by March 15, 2023 with a final report due no later than April 15, 2023. We encourage interested firms to submit a proposal.

AEA may require face-to-face meetings with the Firm, and therefore it is desired that the firms be located in or near Anchorage.

Offerors should anticipate work from approximately early February through the end of the Alaska Legislative session or approximately June 30, 2023; with the concentration of work occurring prior to April 1, 2023. AEA may require additional assistance in responding to legislative questions.

AEA may contract for similar services from other Contractors during the term of the agreement.

SEC. 1.02 BUDGET

AEA estimates a budget of $100,000.00 dollars for completion of the attached scope of work and any additional Notices to Proceed. Proposals priced at more than $100,000.00 will be considered non-responsive.

AEA makes no guarantee as to any minimum amounts of work that may occur and may choose to do a portion of the work with its own staff or other Contractors if it is determined to be in the best interests of AEA.

Payment for the contract is subject to funds already appropriated and identified.

This RFP is a State funded project.

SEC. 1.03 DEADLINE FOR RECEIPT OF PROPOSALS

Proposals must be received no later than 2:00 PM prevailing Alaska Time on January 17, 2023. Faxed proposals are not acceptable.

Late proposals or amendments will be disqualified and not opened or accepted for evaluation.

SEC. 1.04 PRIOR EXPERIENCE

In order for offers to be considered responsive offeror’s must meet these minimum prior experience requirements: Offerors are to provide minimum prior experience under “Relevant Experience and Qualifications”.

1. A minimum of three (3) years demonstrated economist, relevant research, and/or survey experience;
2. Offerors must provide three (3) examples highlighting their experience in renewable energy project impact assessments or impact assessments of similar projects; and
3. Offerors should not have been a grantee, applicant, contractor, or other entity in which there may be a real or perceived conflict of interest with the Alaska Renewable Energy Fund.

An offeror’s failure to meet these minimum prior experience requirements may cause their proposal to be considered non-responsive and their proposal may be rejected.

SEC. 1.05 REQUIRED REVIEW

Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and objectionable material must be made in writing and received by the contracting officer at least ten days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective solicitation and exposure of offeror’s proposals upon which award could not be made. Protests based on any omission or error, or on the content of the solicitation, will be disallowed if these faults have not been brought to the attention of the contracting officer, in writing, at least ten days before the deadline for receipt of proposals.

SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF PROPOSALS

All questions must be in writing and directed to the contracting officer. The interested party must confirm telephone conversations in writing.

Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the RFP. The contracting officer will make that decision. No further question will be allowed after January 13, 2023 at 1:30 PM Alaska prevailing time.

SECTION 2.         BACKGROUND INFORMATION

SEC. 2.01        BACKGROUND INFORMATION

The Alaska Renewable Energy Fund (REF) is a competitive grant program that was established by the Alaska State Legislature in 2008 with the passage of House Bill 152 and is now in its fifteenth annual funding cycle. The program was established to help fund cost-effective renewable energy projects throughout the State. Projects funded by REF are intended to help communities reduce their dependence on fossil fuels in order to stabilize the costs of both heat and electricity. The program is also intended to create jobs, promote renewable energy technology transfer within Alaskan communities, utilize local energy resources, keep money in local economies, and fosters economic development.

As December 31, 2022, the REF has funded 271 REF grants worth approximately $300 million since its inception. Over 100 operating projects have been built with REF grants. AEA seeks to contract for an independent evaluation of the program’s effectiveness of lowering the cost of energy, and the related diesel fuel displacement in locations where projects have been developed, along with other useful program impacts.

Enabling legislation (AS 42.45.045) requires AEA, in consultation with an advisory committee and the Department of Natural Resources to make recommendations to the legislature regarding eligible applicants’ projects that finance feasibility studies, reconnaissance studies, energy resource monitoring, and construction of renewable energy projects, natural gas projects, or transmission or distribution infrastructure located in Alaska. Regulations governing the program were adopted in October 2009 under 3 AAC 14.107.600 through 695.

Copies of the regulations, enabling legislation, and current documents and procedures regarding the program can be found at AEA’s web site: 2022 REF Application (akenergyauthority.org).

As a member of the Clean Energy States Alliance (CESA), AEA has access to a guide for program managers for evaluating renewable energy programs. Some of the concepts in this guide were used in the development of this RFP. Contractors are encouraged to become familiar with this document to better understand some of the benefits and issues related to evaluating renewable energy programs. A copy of this report can be found at: https://www.cesa.org/resource-library/resource/evaluating-renewable-energy-programs-a-guide-for-program-managers/

SEC. 2.02        SCOPE OF WORK

The purpose of this RFP is to contract with a Consultant(s) to collect data and perform an impact evaluation of grants awarded through the Alaska Renewable Energy Fund (REF) from its inception through December 31, 2022 and provide recommendations to the Authority and the State to consider regarding the efficacy, and future of the program.

The impact evaluation is intended to assess the benefits and other impacts of the program, including energy cost savings, decreased dependence on fossil fuels, job creation, development of infrastructure for non-energy users, and economic development related to projects that have been or are in the process of being constructed.
The Contractor will conduct a qualitative and quantitative analyses of the impacts and benefits of the REF program since inception and develop a preliminary and final report containing the results of its analyses. The evaluation will include a cost-benefit analysis of specific projects that have been constructed or are in the process of being constructed. The Contractor will be responsible for collecting and reviewing data and other information containing information necessary to conduct this analyses. The Contractor is expected to identify missing information that may be needed for this analyses.

For the purposes of responding to this RFP the contractor should develop their methodology, work plan, and costs for the impact evaluation based on the minimum assumptions identified in this scope of work.

At a minimum it is expected the Contractor will employ AEA’s set of assumptions (e.g. fuel price, discount rate, project life, future load) in at least one scenario in order to ensure comparability to project selection criteria.

It is expected that the criteria may include but not be limited to:

1. Benefit/Cost of completed projects. Present value of savings in fuel, capital and O&M over the expected life of the project versus cost.
2. Fuel displacement
3. Energy cost savings to consumers
4. Job creation
5. Environmental impacts
6. Other infrastructure development
7. Performance, operations, and maintenance impacts

**Review Project Documentation and Economic Assumptions**

As part of the grantee application evaluation methodology AEA worked with ISER to develop detailed templates for estimating benefit/cost ratios (B/Cs) that were used by AEA’s economic consulting firms in their grantee application review. In addition ISER prepared annual 20-year fuel price projections specific to each community based on USDOE Energy Information Administration (EIA) projections. The contractor may seek to coordinate the development of their impact analysis methodology with knowledgeable, third-parties such as the University of Alaska – Fairbanks’ Alaska Center for Energy and Power (ACEP) and University of Alaska – Anchorage’s Institute for Social and Economic Research (ISER).

For the purpose of responding to this RFP the contractor should plan on reviewing, at a minimum, REF project information for the 100+ projects that have been developed and are currently in operation, from REF Round 1 through Round 14. While AEA has a list of those operational REF projects, along with project contact information, the contractor should note that direct discussions with Grantees will be helpful in producing this analysis, and should be the primary data source when filling in potential data gaps as well as current information concerning renewable generation data. Data obtained by AEA as part of its administration of the Power Cost Equalization program, related to renewable asset generation, utility electric rates, fuel prices, diesel generator efficiency, and others will be made available to the contractor as needed and upon request.

AEA will work with the Contractor to determine the actual number and types of projects to be evaluated prior to beginning work. AEA, via its past request for applications for the REF program will make available to the contractor those AEA-developed templates for recording performance—i.e. energy output, downtime, operation and maintenance (O&M) measures—of completed construction projects, however the use of such templates will be
optional and left at the discretion of the contractor, should the contractor feel that its proprietary means, methods, and presentation are adequately sufficient for the task. It is anticipated that some of this data is available directly from AEA but most information will need to be collected from Grantees.

**Conduct Evaluation Analysis and Prepare Draft Report**

For the purpose of responding to this proposal the contractor can anticipate they will conduct their analysis using data that is either readily available from AEA, ISER, Grantees, or appropriate third-parties (i.e. Energy Information Administration, US Dept. of Energy, ISER, ACEP, etc...). If, based on the contractor’s project review, additional data may need to be gathered or alternative matrices may need to be developed the Authority and/or Contractor.

**Prepare Final Report**

The Contractor will prepare a final report that at a minimum will include:

- An executive summary of findings and recommendations
- A summary of evaluation methodology
- Conclusions and Recommendations
- Appendices

The Contractor will deliver one hardcopy of the final report and one electronic copy of the report in MS Word and in PDF format available for distribution on the web and the printing of additional hard copies as needed.

**Presentations**

The contractor will be required to prepare a MS power point presentation of the evaluation. The contractor should plan on making at least one presentation to AEA management and the REF Advisory committee, however they may be required to make additional presentations to other stakeholders.

Proposals should include a schedule identifies the deliverables noted, proposed start and completion dates, and address any assumptions or expectations they have for the Authority or Stakeholders they build into their schedule.

**SEC. 2.03 CONTRACT TERM AND WORK SCHEDULE**

The length of the contract will be from the date of award, approximately **February 10, 2023**, through **June 30, 2023**.

Unless otherwise provided in this RFP, the Authority and the successful offeror/contractor agree: (1) that any holding over of the contract excluding any exercised renewal options, will be considered as a month-to-month extension, and all other terms and conditions shall remain in full force and effect and (2) to provide written notice to the other party of the intent to cancel such month-to-month extension at least 30 days before the desired date of cancellation.
SEC. 2.04 NOTICE TO PROCEED

The Contractor shall provide services as identified and authorized by sequentially numbered Notices to Proceed (NTPs). The Contractor shall not perform services or incur billable expense except as authorized by a NTP.

The Contractor shall be responsible for all tasks and services authorized by a NTP signed by the Project Manager and shall perform such services in accordance with the project schedule.

A Notice to Proceed by itself cannot authorize any work and is not a binding contract. A Notice to Proceed can only be issued and authorized if there is a fully signed Term Agreement in place with the Contractor.

The Notice to Proceed must include a Statement of Services with tasks, measurable deliverables, and delivery schedule identified. The Statement of Services, delivery schedule, and costs will be negotiated between the Contracting Agency and Contractor for inclusion in the Notice to Proceed.

After project assignment and preliminary project/Statement of Services discussions between Contractor and Agency have been held, Contractor shall submit a proposed delivery schedule and Summary of Estimate for Services that identifies:

a) the assigned staff and hours per task;

b) a breakdown of staff hours per applicable task for each subcontractor; and

c) a breakdown with documentation (estimates from vendors shall be provided upon request) to support direct non-labor expenses.

The hourly rates used for the Contractor's estimate must match the hourly rates listed on the cost proposal for the Primary and any subcontractors used (cannot use subcontractors that are not listed in the Contract without amending the Term Agreement).

The Notices to Proceed will incorporate the negotiated compensation for the project and all the terms and conditions listed in the Contract.

The expiration date of the Notice to Proceed may be several months after the last deliverables are due. This allows time for review of deliverables and adding of additional phases of work, if applicable.

The expiration date of the Notice to Proceed must be within the expiration date of the Contract. The total dollar amount of the Notice to Proceed must be within the amount of the Contract.

All Contracts and Notices to Proceed must be in writing and signed by all required approvers before it becomes binding on AEA.

SEC. 2.05 DELIVERABLES

The contractor will be required to provide the following deliverables:

At a minimum, contractors should expect to be able to deliver the following:
1) The Contractor will deliver one hardcopy of the final report and one electronic copy of the report in MS Word and in PDF format available for distribution on the web and the printing of additional hard copies as needed.

When the contract is completed, an informal debriefing may be performed at the discretion of the project director. If performed, the scope of the debriefing will be limited to the work performed by the contractor.

SEC. 5.02 ALASKA BUSINESS LICENSE AND OTHER REQUIRED LICENSES

Prior to the award of a contract, an offeror must hold a valid Alaska business license. However, in order to receive the Alaska Bidder Preference and other related preferences, such as the Alaska Veteran and Alaska Offeror Preference, an offeror must hold a valid Alaska business license prior to the deadline for receipt of proposals. Offerors should contact the Department of Commerce, Community and Economic Development, Division of Corporations, Business, and Professional Licensing, PO Box 110806, Juneau, Alaska 99811-0806, for information on these licenses. Acceptable evidence that the offeror possesses a valid Alaska business license may consist of any one of the following:

- copy of an Alaska business license;
- certification on the proposal that the offeror has a valid Alaska business license and has included the license number in the proposal;
- a canceled check for the Alaska business license fee;
- a copy of the Alaska business license application with a receipt stamp from the Authority’s occupational licensing office; or

Prior the deadline for receipt of proposals, all offeror’s must hold any other necessary applicable professional licenses required by Alaska Statute.

SEC. 5.03 SITE INSPECTION

The Authority may conduct on-site visits to evaluate the offeror’s capacity to perform the contract. An offeror must agree, at risk of being found non-responsive and having its proposal rejected, to provide the
Authority reasonable access to relevant portions of its work sites. Individuals designated by the contracting officer at the Authority’s expense will make site inspection.
SEC. 5.04  CLARIFICATION OF OFFERS

In order to determine if a proposal is reasonably susceptible for award, communications by the contracting officer or the proposal evaluation committee (PEC) are permitted with an offeror to clarify uncertainties or eliminate confusion concerning the contents of a proposal. Clarifications may not result in a material or substantive change to the proposal. The evaluation by the contracting officer or the PEC may be adjusted as a result of a clarification under this section.

SEC. 5.05  DISCUSSIONS WITH OFFERORS

The Authority may conduct discussions with offeror’s in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the RFP and proposal. Discussions will be limited to specific sections of the RFP or proposal identified by the contracting officer.

Discussions will only be held with offeror’s who have submitted a proposal deemed reasonably susceptible for award by the contracting officer. Discussions, if held, will be after initial evaluation of proposals by the contracting officer or the PEC. If modifications are made as a result of these discussions they will be put in writing. Following discussions, the contracting officer may set a time for best and final proposal submissions from those offeror’s with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an offeror does not submit a best and final proposal or a notice of withdrawal, the offeror’s immediate previous proposal is considered the offeror’s best and final proposal.

Offerors with a disability needing accommodation should contact the contracting officer prior to the date set for discussions so that reasonable accommodation can be made. Any oral modification of a proposal must be reduced to writing by the offeror.

SEC. 5.06  EVALUATION OF PROPOSALS

The contracting officer, or an evaluation committee made up of at least three state employees or public officials, will evaluate proposals. The evaluation will be based solely on the evaluation factors set out in SECTION 4. EVALUATION CRITERIA AND CONTRACTOR SELECTION.

After receipt of proposals, if there is a need for any substantial clarification or material change in the RFP, an amendment will be issued. The amendment will incorporate the clarification or change, and a new date and time established for new or amended proposals. Evaluations may be adjusted as a result of receiving new or amended proposals.

SEC. 5.07  CONTRACT NEGOTIATION

After final evaluation, it is anticipated that the contracting officer may conduct negotiations with the offeror’s of the highest-ranked proposals. Negotiations, if held, shall be within the scope of the request for proposals and limited to those items which would not have an effect on the ranking of proposals. If the highest-ranked offeror fails to provide necessary information for negotiations in a timely manner, or fails to negotiate in good
faith, the Authority may terminate negotiations and negotiate with the offeror of the next highest ranked proposal. If contract negotiations are commenced, they may be held in Anchorage, Alaska. Multiple awards are anticipated owing to offeror capacity constraints and/or willingness or ability of offeror’s to evaluate applications concerning specific technologies.

If the contract negotiations take place in Anchorage, Alaska, the offeror will be responsible for their travel and per diem expenses.

SEC. 5.08  FAILURE TO NEGOTIATE

If the selected offeror

- fails to provide the information required to begin negotiations in a timely manner; or
- fails to negotiate in good faith; or
- indicates they cannot perform the contract within the budgeted funds available for the project; or
- if the offeror and the Authority, after a good faith effort, simply cannot come to terms,

the Authority may terminate negotiations with the offeror initially selected and commence negotiations with the next highest ranked offeror.

SEC. 5.09  OFFEROR NOTIFICATION OF SELECTION

After the completion of contract negotiation the contracting officer will issue a written Notice of Intent to Award (NIA) and send copies to all offeror’s. The NIA will set out the names of all offeror’s and identify the proposal(s) selected for award.

SEC. 5.10  PROTEST

AS 36.30.560 provides that an interested party may protest the content of the RFP.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the contracting officer at least ten days prior to the deadline for receipt of proposals.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If an offeror wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the contracting officer within five days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a proposal in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:
• the name, address, and telephone number of the protester;

• the signature of the protester or the protester's representative;

• identification of the contracting agency and the solicitation or contract at issue; and

• a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.
Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The contracting officer will issue a written response to the protest. The response will set out the contracting officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All offerors will be notified of any protest. The review of protests, decisions of the contracting officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."

SEC. 5.11 APPLICATION OF PREFERENCES

Certain preferences apply to all contracts for professional services, regardless of their dollar value. The Alaska Bidder, Alaska Veteran, and Alaska Offeror preferences are the most common preferences involved in the RFP process. Additional preferences that may apply to this procurement are listed below. Guides that contain excerpts from the relevant statutes and codes, explain when the preferences apply and provide examples of how to calculate the preferences are available at the Department of Administration, Division of General Service’s web site:

http://doa.alaska.gov/dgs/pdf/pref1.pdf

- Alaska Products Preference - AS 36.30.332
- Recycled Products Preference - AS 36.30.337
- Local Agriculture and Fisheries Products Preference - AS 36.15.050
- Employment Program Preference - AS 36.30.321(b)
- Alaskans with Disabilities Preference - AS 36.30.321(d)
- Alaska Veteran’s Preference - AS 36.30.321(f)

The Division of Vocational Rehabilitation in the Department of Labor and Workforce Development keeps a list of qualified employment programs and individuals who qualify as persons with a disability. As evidence of a business’s or an individual’s right to the Employment Program or Alaskans with Disabilities preferences, the Division of Vocational Rehabilitation will issue a certification letter. To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals. Offerors must attach a copy of their certification letter to the proposal. An offeror’s failure to provide this certification letter with their proposal will cause the Authority to disallow the preference.

Sec. 5.12 ALASKA BIDDER PREFERENCE

An Alaska Bidder Preference of 5% will be applied to the price in the proposal. The preference will be given to an offeror who:
1) holds a current Alaska business license prior to the deadline for receipt of proposals;

2) submits a proposal for goods or services under the name appearing on the offeror’s current Alaska business license;

3) has maintained a place of business within the state staffed by the offeror, or an employee of the offeror, for a period of six months immediately preceding the date of the proposal;

4) is incorporated or qualified to do business under the laws of the state, is a sole proprietorship and the proprietor is a resident of the state, is a limited liability company (LLC) organized under AS 10.50 and all members are residents of the state, or is a partnership under AS 32.06 or AS 32.11 and all partners are residents of the state; and

5) if a joint venture, is composed entirely of ventures that qualify under (1)-(4) of this subsection.

Alaska Bidder Preference Statement

In order to receive the Alaska Bidder Preference, the proposal must include a statement certifying that the offeror is eligible to receive the Alaska Bidder Preference.

If the offeror is a LLC or partnership as identified in (4) of this subsection, the statement must also identify each member or partner and include a statement certifying that all members or partners are residents of the state.

If the offeror is a joint venture which includes a LLC or partnership as identified in (4) of this subsection, the statement must also identify each member or partner of each LLC or partnership that is included in the joint venture and include a statement certifying that all of those members or partners are residents of the state.

SEC. 5.13 ALASKA VETERAN PREFERENCE

An Alaska Veteran Preference of 5%, not to exceed $5,000, will be applied to the price in the proposal. The preference will be given to an offeror who qualifies under AS 36.30.990(2) as an Alaska bidder and is a:

A. sole proprietorship owned by an Alaska veteran;

B. partnership under AS 32.06 or AS 32.11 if a majority of the partners are Alaska veterans;

C. limited liability company organized under AS 10.50 if a majority of the members are Alaska veterans; or

D. corporation that is wholly owned by individuals, and a majority of the individuals are Alaska veterans.

Alaska Veteran Preference Statement

In order to receive the Alaska Veteran Preference, the proposal must include a statement certifying that the offeror is eligible to receive the Alaska Veteran Preference.

SEC. 5.14 ALASKA OFFEROR PREFERENCE

2 AAC 12.260(e) provides Alaska offeror’s at least a 10% overall evaluation point preference. Alaska bidders, as
defined in AS 36.30.990(2), are eligible for the preference. An Alaska offeror will receive 10 percent of the total available points added to their overall evaluation score as a preference.
SEC. 5.15 FORMULA USED TO CONVERT COST TO POINTS

The distribution of points based on cost will be determined as set out in 2 AAC 12.260(c). The lowest cost proposal will receive the maximum number of points allocated to cost. The point allocations for cost on the other proposals will be determined using the formula:

\[
\left(\frac{\text{Price of Lowest Cost Proposal} \times \text{(Maximum Points for Cost)}}{\text{Cost of Each Higher Priced Proposal}}\right)
\]

SEC. 5.16 EXAMPLES: CONVERTING COST TO POINTS & APPLYING PREFERENCES

(a) FORMULA USED TO CONVERT COST TO POINTS

**STEP 1**

List all proposal prices, adjusted where appropriate by the application of applicable preferences claimed by the offeror.

- Offeror #1 $40,000
- Offeror #2 $42,750
- Offeror #3 $47,500

**STEP 2**

In this example, the RFP allotted 40% of the available 100 points to cost. This means that the lowest cost will receive the maximum number of points.

**Offeror #1 receives 40 points.**

The reason they receive that amount is because the lowest cost proposal, in this case $40,000, receives the maximum number of points allocated to cost, 40 points.

**Offeror #2 receives 37.4 points.**

\[
\frac{40,000 \text{ lowest cost} \times 40 \text{ maximum points for cost}}{42,750 \text{ cost of Offeror #2’s proposal}} = 37.4
\]

**Offeror #3 receives 33.7 points.**

\[
\frac{40,000 \text{ lowest cost} \times 40 \text{ maximum points for cost}}{47,500 \text{ cost of Offeror #3’s proposal}} = 33.7
\]

(b) ALASKA OFFEROR PREFERENCE

**STEP 1**

Determine the number of points available to qualifying offerors under this preference.

100 Total Points Available in RFP x 10% Alaska offerors preference = 10 Points for the Preference

**STEP 2**

Determine which offerors qualify as Alaska bidders and thus, are eligible for the Alaska offerors preference.
For the purpose of this example, presume that all of the proposals have been completely evaluated based on the evaluation criteria in the RFP. The scores at this point are:

<table>
<thead>
<tr>
<th>Offeror #1</th>
<th>83 points</th>
<th>No Preference</th>
<th>0 points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Offeror #2</td>
<td>74 points</td>
<td>Alaska Offerors Preference</td>
<td>10 points</td>
</tr>
<tr>
<td>Offeror #3</td>
<td>80 points</td>
<td>Alaska Offerors Preference</td>
<td>10 points</td>
</tr>
</tbody>
</table>

**STEP 3**

Add the applicable Alaska offerors preference amounts to the offeror’s scores:

<table>
<thead>
<tr>
<th>Offeror #1</th>
<th>83 points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Offeror #2</td>
<td>84 points (74 points + 10 points)</td>
</tr>
<tr>
<td><strong>Offeror #3</strong></td>
<td><strong>90 points</strong> (80 points + 10 points)</td>
</tr>
</tbody>
</table>

**STEP 4**

Offeror #3 is the highest scoring offeror and would get the award(s), provided their proposal is responsible and responsive. Please note that it is anticipated that there will be multiple awards to account for offeror’s capacity constraints and/or the willingness of the offeror’s to evaluate certain technology types.

To the extent not otherwise governed by the preceding, the claim shall be brought only in the Superior Court of the State of Alaska and not elsewhere.

SECTION 7. ATTACHMENTS

ATTACHMENT 1 – COST PROPOSAL

Note: The purpose of the cost formula is to provide a mechanism for offeror’s to submit project costs in a manner that AEA can evaluate and score and then use to establish billing rates for the resultant contract. Cost will be evaluated on the Sample RFI Application Cost.

Offerors must provide pricing as outlined below or their proposal will be rejected as non-responsive.

Cost proposals must include fixed hourly rates that includes all direct and indirect costs associated with the performance of the contract, including, but not limited to, total number of hours at various hourly rates, direct expenses, payroll, supplies, overhead assigned to each person working on the project, percentage of each person’s time devoted to the project, and profit.

As the Authority does not have a specific methodology set for this request for proposals, Offerors should take care in their provided methodology to ensure that any and all costs are captured for the fulfillment of those tasks as outlined in the proposal as submitted by the respective Offeror. The application unit cost should include the hourly rate of each project team member, the tasks to be performed as outlined in the Scope of Work and the offeror’s management plan, and the number of hours required by each team member per task.

If additional unanticipated work is required after contract award, it shall be performed at the hourly rate quoted below. Offerors should provide an hourly rate for all employees working on this project. Any change in individual resources or sub-contractors after award will require approval by the Agency Project Manager.

INSTRUCTIONS TO CONTRACTOR for COST REIMBURSEMENT NOTICE TO PROCEED (NTP) & BILLING SUMMARY

1 Retain an unmarked, as issued, copy of this form to be used for reproduction and billing.

2 If this NTP is unacceptable, notify the Contracting Agency immediately. If acceptable, acknowledge by signature where indicated on a copy of this NTP and return it within ten days after your receipt.

3. Submit monthly Invoices to the Agency Contract Manager named in this NTP. Provide a copy of page one of this form as the FACE PAGE of each invoice submitted and with the following entries accurately completed:

   a) Indicate if the Invoice is for Progress or Final Payment and show the Sequential Invoice Number for this NTP.
   
   Entries in the following columns: Prior Approved Payments, This Billing, and Total to Date for each Task Group;

   b) plus the SUM TOTALS for: Authorized To Date, Prior APPROVED Payments, THIS INVOICE, Prior Payments plus this Invoice, and Balance of Authorized Amount.

Note: "Prior APPROVED Payments" amounts may NOT be the same as the total of all your prior invoices if some items were disallowed or adjustments were made. If a prior billing has not been acknowledged with any payment, or a different amount from your billing was paid without notification to you of the reason(s), attach a request for an explanation and remedial action.

4 Sign, date and enter printed or typed name under "PAYMENT REQUEST (Contractor)" thereby attesting to the following:

   "By signature on this form, the Contractor certifies entries to be true and correct for the services performed to date under or by virtue of said Agreement and in accordance with AS 36.30.400. The Contractor further certifies that all applicable Federal, State and Local taxes incurred by the Contractor in the performance of the services have been paid and that all Subcontractors engaged by the Contractor for the services included in any invoice shall be fully compensated by the Contractor for such services."

5 When Applicable, ATTACH A CURRENT COPY OF EXHIBIT C-4, COST REIMBURSEMENT BILLING DETAIL FORM (from Appendix C of the Agreement) to each invoice. Internally check the form and correct mathematical extensions. The Contracting Agency may return erroneous invoices for correction before processing for payment.

6 Substantiate all charges in each billing, other than for Fixed Prices or Fixed Fees, by attaching a summary of hours expended and hourly labor rate per employee; summary of units completed; subcontractor invoices; expense receipts, etc.; or other proof of expenditures.

7 Prime Contractor’s Labor and Indirect Cost shall be billed to the Contracting Agency within 45 days of performance. Subcontractors’ Labor and Indirect Cost shall be billed to the Contracting Agency within 60 days of
performance. All of the Contractor’s and Subcontractors’ Other Direct Costs (Expenses) shall be billed to the Contracting Agency within 90 days of being incurred. Charges submitted after the above stated times will, at the Contracting Agency’s discretion, not be paid.

8 When each NTP is approximately 75% complete, the Contractor shall determine if the Authorized Amount(s) might be exceeded; and, if so, shall provide an estimate of cost to complete. The Contracting Agency will determine after discussion with the Contractor if additional cost is reasonable and does not include costs that should be absorbed by the Contractor. If additional cost is validated, a negotiated Amendment will be executed which either (1) reduces the scope of services/work products required commensurate with the Authorized Amount(s), or (2) increases the Authorized Amount(s) to that required for completion of the original contract scope.
